

## ★ The ★ Original *Bob McTavish*

The Original is a radical longboard that has been blowing minds for over 15 years! It was the first modern performance longboard, and was pieced together by Bob using all his knowledge gained from leading the shortboard revolution.

The Original has a flipped rocker profile and a very hippy tail, giving it an accurate pivot point. The Original is loose and fast off the tail making it transition with ease, while the trim channels in the nose add lift which give you great control while noseriding.

This board suits a wide variety of conditions but will really come into it's own when you get it out in waves over 3ft.
