

Heather Ross teamed up with Walden Surfboards to produce an inspired range of art series boards. Heather is a renowned author and artist whose work draws upon her own childhood, which she describes as "rural and unsupervised!" We call it beautiful.

Heather has designed two Mermaid graphics as well as the special Walden Wahine turtle logo.

While the board might look beautiful it also is a fully function performance surfboard. Featuring the Magic Model design and X-2 Epoxy construction the board will suit surfers of all levels who ride a wide variety of wave types.

This board has been designed to be ridden rather than hung on a wall. It is more than your average art board.

-  Magic Bottom
