

MAGIC ★ MODEL 3

The Magic 3 is a Magic model with a more exaggerated design and an emphasis on maximum speed and maneuverability. The Magic 3 has a deeper concave nose merging into the renowned Magic Model double concave tail. The rocker is slightly flatter which allows for increased speed and smooth planing.

The Magic 3 is constructed using X-2 Technology with a thin wood veneer sandwich which gives this board a very lively feeling and the strength to ensure this board remains in your quiver for many years to come.

If your looking for an all around durable performance longboard that will push the limits the Magic 3 is the one for you.
